

Corporate Volunteering with NESports Foundation

Transform your team. Empower communities through the power of sport. Partner with us to deliver high-energy, deeply impactful employee volunteering programs that build teams, foster inclusion, and change lives.

Why Partner With Us

- **Dual Impact** — drive meaningful social change while boosting employee engagement, morale, and retention.
- **Turnkey Execution** — we handle logistics end-to-end: equipment, venue, safety protocols, onboarding.
- **Measurable ESG Metrics** — detailed post-event reports with volunteer hours, participation, and impact data for CSR reporting.
- **Skill Alignment** — programs designed to build leadership, communication, and project-management skills.

Our Corporate Volunteering Programs

Track 1 — Inclusive & Para-Sports Execution

Work alongside athletes with diverse abilities to run adapted, high-empathy tournaments: Blind Cricket, Wheelchair Basketball, Unified Sports Days. Best for DEI-focused teams.

Track 2 — Grassroots Coaching & Life-Skills Mentorship

Use the playground as a classroom: one-day sports clinics, football/basketball fundamentals, team-building games that build leadership and resilience. Best for active, high-energy engagement.

Track 3 — The "Kit & Play" Corporate Challenge (On-Site / In-Office)

A high-impact assembly program hosted at your office: teams race to assemble sports kits, ending in a hand-off ceremony to underfunded schools. Best for large teams or tight schedules (2–3 hrs).

Track 4 — Pro-Bono Sports Management (Skilled Volunteering)

Virtual or hybrid mentorship in marketing, budgeting, sports law, or digital strategy for young athletes and rural coaches. Best for executive teams seeking intellectual impact.

The Partnership Journey

1. Consult	2. Customize	3. Execute	4. Report
Share your team size, location, budget, and CSR goals.	We design a tailored itinerary aligned to your team culture.	Our field team runs the complete event on the ground.	You receive an impact report with media, testimonials, and ESG data.
